

The 50 MHz DX Bulletin

Volume 16, Issue 7

July 2005

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schools K3HS. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K6FV. Subscription rates are \$24 U.S. first class mail, \$27 Canada/Mexico airmail, and \$30 by airmail elsewhere for 12 issues. Payments may be made to k6fv through PayPal. Circulation matters and DX reports should be sent to Victor R. Frank, K6FV, 12450 Skyline Blvd., Woodside, CA 94062-4554 USA. My Internet address is victor.frank@sri.com. My web site is <http://www.qsl.net/k6fv>. The bulletin may be freely quoted, provided that credit is given.

Erik Roy, TI2NA, SK

Erik Roy, an enthusiastic supporter of 50 MHz passed away. I read on eHam.net Friends Remembered a contribution from Phil, N0KE, dated July 11, so I presume it was prior to this date. I remember seeing July 4 somewhere, so that may be it. At any rate, Phil writes that Erik was a graduate of Rensselaer Polytechnic Institute, was the first TI to operate 6m, made the first EME contact on 432 MHz from Costa Rica, and made the original TI2NA 6m beacon. Hopefully the new beacon can continue to operate under his call.

DX Operations

Most of the listings in this column came from OZ6OM's Daily DX and SM7AED's notebook.

Iraq, YI/N5JEH: Ed is on 6m as of late July and should be there till mid-August.

Chagos, VQ9LA: Larry has returned and will stay until May 2006.

Liechtenstein, HB0/PA6TUE: The Eindhoven Student Radioamateur Club plan activity on 160m-3cm from JN47TC between August 4 and 16.

Hungary, HA: 65 Hungarian stations have received experimental radio licenses for 50.05-50.5 MHz for 5W ERP for the month of August.

Monaco, 3A/F8ASY: Chris plans to be QRV on 6 through 160m from August 15 to 20.

Spain, EB: As of July 29, all Spanish station with EB prefix will be allowed to operate 6m. The prefix EH will disappear.

Bermuda, VP9/WA4GPM: Kyle plans 6 through 160m activity from September 9 to 13.

Guantanamo Bay Cuba, KG4OV: W4OV, Bruce, has rescheduled his trip and plans 6-160m operation from August 19 to 22.

St. Kitts & Nevis, V47UY: Larry, KJ4UY will be active on 6m here between August 19 and 26.

Antigua, V25LR & V25WX: Larry, W1LR, and Bill, W4WX, plan 20-10m operation from here August 15-24, but will be taking a 6m antenna along.

South Pacific/Chile, CE/LA6IKA: Svein will be onboard a cruise ship September 13 through January 13. The trip will include multiple stops with expected activity from Chile and Easter Island in the December 6-13 time frame. He plans 6 through 40m activity with an IC-703 and simple vertical antennas.

Kure Is., KH7K: A multinational team plans to set sail September 16 from Honolulu and arrive at Kure Is. a week later. Look for 6-160m activity starting around September 22-24 and lasting through October 8.

Alaska, KL7/WF9A: Alex, LZ4AX, is active on 6-80m from Barrow and Atkasuk until August 10.

Beacon Reports

Hungary, HA5AK: planned for 50.050 during the August experimental license period.

Australia, VK2RSY: is back on the air 50.289 MHz with 12W. Reports to vk2wi@ozemail.com.au

Qatar, A71A: LL55SH, on the roof of the Sheraton Hotel in Doha is on 50.006, running 8W to a J-pole.

Denmark, OZ7IGY: On July 20, SM7AED heard this beacon on 50.021 from JO55VM, so it has a new QTH.

July 2005 DX Reports

The following reports of 50 MHz DX propagation are courtesy of JA1VOK, JH1WHS, YO7VS, K6QXY, IW2CAM, G4UPS, VE7SKA, W5UWB, and postings on the Internet. Apologies to any sources I may have inadvertently neglected.

Propagation reports this month have been very numerous. I attempted to obtain a mixed sample of DX and rare countries by limiting ordinary listings to >2200 km. Listings obtained from the Internet include distances in kilometers. These are determined preferentially from the grids in the post, and otherwise from one or both of the prefixes of the calls. Note that the latter results in VERY rough approximations to the distances, especially for large countries and call areas.

The first entry is *mmddhhii*, where *mm* is the month, *dd* is the day of the month, *hh* is the hour UTC, and *ii* is the minutes after the hour. The year is understood to be 2005. Symbols just before the call of the reporting station include: V=Video Carrier, I=Inband video sidebands, F=FM audio, B=beacon, C=CW, D=Telemetry Data, J=Digital, typically JT6M, R=RTTY, S=SSB, W=mode not mentioned (or both CW & SSB), H=heard only. BSc = backscatter.
